Contact name and postal address for service of person making submission (if different from above)	Howard Keene 25 Albert Terrace Christchurch 8022
Please tick those that apply	• I would be prepared to consider presenting my submission in a joint case with others making a similar submission at any hearing

Your submission on the Proposal for the Canterbury Regional Pest Management Plan

Our submission relates 6.4 Pests to be managed under sustained control programme

We would like you to amend the list of species required to be cleared to within 10m of a boundary under the Good Neighbour rule to include additional species.

Specifically in out case we would like it to include boneseed, banana passionfruit and tree Lucerne. It may be necessary to include other species in other areas.

As an example we have spent many days clearing a boundary, but the unoccupied land upslope is a dense thicket of numerous weed species. To require the absentee neighbour to clear only gorse and broom to within 10m of the boundary goes only part of the way to help prevent a complex weed reinvasion of our land from above.
