 Contact name and postal address for service of person making submission (if different from above): \_\_\_\_\_

### Trade Competition

Pursuant to Clause 6 of Schedule 1 of the Resource Management Act 1991, a person who could gain an advantage in trade competition through the submission may make a submission only if directly affected by an effect of the proposed policy statement or plan that:

- a) adversely affects the environment; and
- b) does not relate to trade competition or the effects of trade competition.

**Please tick the sentence that applies to you:**

- ☒ I could not gain an advantage in trade competition through this submission; or
- ☐ I could gain an advantage in trade competition through this submission.

**If you have ticked this box please select one of the following:**

- ☐ I am directly affected by an effect of the subject matter of the submission that adversely affects the environment and does not relate to trade competition or the effects of trade competition.
- ☐ I am not directly affected by an effect of the subject matter of the submission that adversely affects the environment and does not relate to trade competition or the effects of trade competition.

Signature: James N. Jolly Date: 4 October 2012  
 (Signature of person making submission or person authorised to sign on behalf of person making the submission)

Please note:

(1) all information contained in a submission under the Resource Management Act 1991, including names and addresses for service, becomes public information.

- ☐ I do not wish to be heard in support of my submission; or
- ☒ I do wish to be heard in support of my submission; and if so,
- ☒ If others make a similar submission, I will consider presenting a joint case with them at the hearing.

(1) The specific provisions of the Proposed Plan that my submission relates to are:		(2) My submission is that: (include whether you support or oppose the specific provisions or wish to have them amended and the reasons for your views.)		(3) I seek the following decisions from Environment Canterbury: (Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand your concerns.)
Section & Page Number	Sub-section/ Point	Oppose/support (in part or full)	Reasons	
1.2.2+3	Para. 8	Oppose in part	Unbalanced comment on forestry in dry Upper Catchments	Add: Forestry attenuates flash flooding, reduces soil erosion, improves aquatic habitat through $\frac{2}{3}$ + of 30 yr. rotation
1.2.6	over-allocation	Oppose in part	Inadequate remedial action that conflicts with NPS Freshwater Management 2011 Objective B1 and B2, Policies B5 and B6	Add "over-allocation must be phased out in a defined timeframe"
14.7	over-allocation	Support	Complies with NPS	Amend 1.2.6 as above
14.14.6	new consent Orari River	Oppose in full	New or replacement water allocation consent should not be based on need and efficiency	After working to "new or replacement consent should be based on elimination of over-allocation and restoration of adequate environmental flow."
14.14.12 + 14.15.2	Dam on Lower Orari	Oppose in full	Damming of Lower Orari would interfere with flushing flows, and flow variability essential for the ecology of the river	Damming of Lower Orari becomes a prohibited activity as with upper Orari. See definition of dam
14.6	Minimum Flows	Oppose in part	August to December should be in higher flow bracket as critical for nesting period of waded birds including 3 threatened species. See Rangitikei WCO flow regime. Essential to <sup>reduce</sup> large river days at SH1-SH 72 from current 85 days to "Natural" (pre-consent) 45 days (ECAN and Golder figures)	3 years from O.P. May-Dec: 900 L/s 2030 (230 years from 1990's consent) : 1800 L/s Minimum flows for A permit. Adjust allocations accordingly. Providing these minimum flows reduce number of dry river days as indicated.
