Reasons continued:

The reason we want it changed is because our irrigation consent expired in 2010 and we had been in the process of getting our information together to renew the consent. We have had a consent since water consents were introduced for bore number J40/0154.

If denied our allocation of water this will have a serious effect on the economic viability of our farming operation given that we have had the infrastructure for irrigation on our farm since before 1980.

We are not asking for anything new just asking for what we have already had for the last nearly 40 years.

Thank-you

Yours sincerely
Sam Small.
