<td>We wish to have the Ellesmere Golf Course area included on Maps A-076 and B-076 as an area that is within the Little Rakaia Nutrient Allocation Zone and also rot in an over allocated water take zone. Map attached shows Golf Course location. This may be achieved by including all properties that have frontages onto Feredays Rd into the zone, both east and west, where the EISI submission shows Feredays Rd to be a zone boundary. The Golf Club is a community asset on SDC reserve land. The need for irrigation is vitally important to the future of the Golf Club. The real health and social benefits of sporting engagement, particularly in an aging population, one of the four well beings required of local government.</td>
