 Contact name and postal address for service of person making submission (if different from above):

Trade Competition

Pursuant to Schedule 1 of the Resource Management Act 1991, a person who could gain an advantage in trade competition through the submission may make a submission only if directly affected by an effect of the proposed policy statement or plan that:

- adversely affects the environment; and
- does not relate to trade competition or the effects of trade competition.

Please tick the sentence that applies to you:

I could not gain an advantage in trade competition through this submission; or
 I could gain an advantage in trade competition through this submission.

If you have ticked this box please select one of the following:

I am directly affected by an effect of the subject matter of the submission
 I am not directly affected by an effect of the subject matter of the submission

Signature: R W Manson Date: 20 - 3 - 2014
 (Signature of person making submission or person authorised to sign on behalf of person making the submission)

Please note:
 (1) all information contained in a submission under the Resource Management Act 1991, including names and addresses for service, becomes public information.

I do not wish to be heard in support of my submission; or
 I do wish to be heard in support of my submission; and if so,
 I would be prepared to consider presenting your submission in a joint case with others making a similar submission at any hearing

(1) The specific provisions of the Proposed Plan that my submission relates to are:		(2) My submission is that: (include whether you support or oppose the specific provisions or wish to have them amended and the reasons for your views.)		(3) I seek the following decisions from Environment Canterbury: (Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand your concerns.)
Section & Page Number	Sub-section/ Point	Oppose/support (in part or full)	Reasons	
Page 21	Rule 11.5 4.2.	oppose.	see attached paper.	Probably restrict water supplies for both livestock and humans So do not prohibit pening of Selwyn etc.
The whole Plan.		oppose.	(6 working days) Not Enough Time for meetings to properly consider Plan. →	

Add further pages as required – please initial any additional pages.

R W Munro.

A

My name is Ross Manson and I have lived on three different properties in Selwyn.

The first farm was Deltons Road Brookside; heavy peat with abundant springs; from 1944 - 1989.

The water supply was beautiful spring water next to the Bogey creek. When this water was tested by the Catchment Board ^{in the 1970s} it was very high in Nitrates. Our family had no problems.

The second farm was ^{at} Mitchells Road Te Pūita 1989 - 1995. Our water supply was a water-race from the Rakaima. Not ideal but except for sludge we had few problems.

The third farm is on Steeles Road Hororata which has a piped water supply from the Selwyn catchment. It is good water that supplies both stock and humans. Every now and then the Council chlorinates it because of perceived problems.

This doesn't affect humans but can have adverse effects on livestock; lambs in particular, so the providing of good water is the basis of my submission.

B

One of the problems for piped water is low water at intakes which could easily overwhelm stored tank water for livestock. So that in the future Dams to increase and or save water may be necessary, especially as the population of the district is booming. As it stands this would not be possible under the proposed Variation I. Therefore I oppose it. (The prohibiting of water storage in Mainstreams of Selwyn / Waikirikiri and Waianiwaniwa)

C

With only 6 working days to consider this proposal I believe that not enough time has been given to the Public to properly review it. Therefore I object to the whole of Variation I

R W Manson.
