- I do wish to be heard in support of my submission; and if so,
- I would be prepared to consider presenting your submission in a joint case with others making a similar submission at any hearing

(1) The specific provisions of the Proposed Plan that my submission relates to are:		(2) My submission is that: (include whether you support or oppose the specific provisions or wish to have them amended and the reasons for your views.)		(3) I seek the following decisions from Environment Canterbury: (Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand your concerns.)
Section & Page Number	Sub-section/ Point	Oppose/support (in part or full)	Reasons	
		14yr average	For water allocation! In a cropping farm some years we do very little irrigations, because we have a 3 month growing & irrigating window	I seek to use the av of the 2 highest yrs over a 10yr period.
	Restriction on Halswell. River irrigation use.		There is no more than 6 takes of any significance on the Halswell	Given the change of land use in the area there is no problem so no need to fix
	20m no go zone along Halswell		Seems a one size fits all policy 20m each side of a river that at the top may be a meter wide is waste of productive land.	20m below Burkes Drain 10 metres reducing to 5. at Halswell.
	A lot of the various conclusions are based on historical events & perceptions in relation to the Halswell catchment. (eg Area used to be predominantly Dairy it is now urban & high style) Hill catchment was regularly fertilised - about 10yr there would be less than 25Tn of fert put on Hill catchment.
