State concisely whether you support or oppose the provision being submitted on, or wish to have amendments made.

My submission is that: Support

Please state your reasons for supporting/opposing/amendments sought

My reason(s) for supporting, opposing or requesting amendments to this specific provision are:

The proposed reduction in Nitrogen Loads and other contaminants is a key element in addressing water quality issues .I would have preferred a shorter time frame/key date for properties greater than 20 hectares from 2022 to 2017. I support the proposal that Central Plains Water Shareholders are prohibited from transferring and or using their (no longer required)consents as this will reduce pressure on groundwater and improve river and stream flows. This was a fundamental benefit which Central Plains Water itself advertised as part of its publicity campaign. It is therefore appropriate that its shareholders comply with this.

Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand the outcome you are seeking.

I seek the following decisions from Environment Canterbury:

- Approve and implement Variation 1 as proposed.
- Intensive Agriculture to become a Consented Activity
