Submission Type	Web
Version	0.1

State concisely whether you support or oppose the provision being submitted on, or wish to have amendments made.

My submission is that: Oppose

Please state your reasons for supporting/opposing/amendments sought

My reason(s) for supporting, opposing or requesting amendments to this specific provision are:

Removal and planting of vegetation along drains should continue to be able to be cleaned and maintained by the property owner without needing a resource consent, otherwise **MORE FLOODING WILL DEFINITELY OCCUR**. The Halswell drainage scheme has for a long, long time needed a MAJOR upgrade, this variation will make it extremely hard to just **maintain** it in its current inefficient condition. With the added drainage pressure from subdivisions, new drains and the maintenance of existing drains should be made easier not more difficult as this amendment proposes.

Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand the outcome you are seeking.

I seek the following decisions from Environment Canterbury:

I want to see more effective drainage solutions with less time spent planting in drains which adds to the flooding problem!
