State concisely whether you support or oppose the provision being submitted on, or wish to have amendments made.

My submission is that: Support

Please state your reasons for supporting/opposing/amendments sought

My reason(s) for supporting, opposing or requesting amendments to this specific provision are:

We currently live in area Landsdowne Valley which floods every year, at times we have over 900 mm of water on our farm. It is critical to our property that no further stormwater is discharged on to our property.

Recent subdivisions have obtained consents to discharge without consultation this must not happen again.

Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand the outcome you are seeking.

I seek the following decisions from Environment Canterbury:

I fully support the requirement for a storm water discharge resource consent being required for all future hill and flat land subdivisions that drain to the Halswell River.
