**SUBMISSION ON PROPOSED WAIPARA CATCHMENT ENVIRONMENTAL  
FLOW AND WATER ALLOCATION REGIONAL PLAN**  
**– Muddy Water Ltd**

---

**1 The specific provisions of the variation that our submission relates to are:**

Our submission refers to Appendix 4 – Summary of Surface Water Consents. In particular it relates to the consents listed under “Omihī Stream B Block” on page 27.

**2 Our submission is that:**

Our submission is that consent CRC040850 that includes the diversion of water from an unnamed tributary of Omihī Stream at a maximum rate of 18 litres per second into an off-stream storage dam should be included in the consents listed under the “Omihī Stream B Block” in Appendix 4 on page 27. The reason for our submission is that since 1993 when Muddy Water Ltd constructed their water harvesting irrigation scheme, the diversion of water from an unnamed tributary of the Omihī Stream into an off-stream storage dam at a maximum rate of 18 litres per second has been operating as an integral part of their irrigation scheme.

**3 We seek the following decisions from Environment Canterbury:**

That consent CRC040850, that includes the diversion of water from an unnamed tributary of Omihī Stream at a maximum rate of 18 litres per second into an off-stream storage dam, is included in the consents listed under the “Omihī Stream B Block” in Appendix 4 on page 27 of the Proposed Waipara Catchment Environmental Flow and Water Allocation Regional Plan.
