 Postal address for service of person making submission (if different from above):

Signature: 

(Signature of person making submission or person authorised to sign on behalf of person making the submission)
 Please note:
 (1) all information contained in a submission under the Resource Management Act 1991, including names and addresses for service, becomes public information.

(1) The specific provisions of the variation that my submission relates to are: (Specify page number and subsection numbering for each separate provision).
Pa 4 Pg 14

(2) My submission is that: (State concisely: the nature of your submission, and clearly indicate whether you support or oppose each separate provision being submitted on, or wish to have amendments made, giving reasons.)
It is assumed by abstractors that takes from water runs gravels that are 3l/s or less would be regarded as the same as ground water takes with stream depleting effects and allowed to continue below min cutoff. specifically from galleries/bores.

(3) I seek the following decisions from Environment Canterbury: (Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand your concerns.)
We submit that it should be permitted to allow extractions from bores/galleries that are for 3l/s or less and to operate without a min. flow restriction.

Policy 1.A, P 22 Pa 9
DEFINITIONS

**Variation 17 to the Proposed NRRP
Deletion of Provisions for Waipara Catchment**

(1) The specific provisions of the variation that my submission relates to are: (Specify page number and subsection numbering for each separate provision).	(2) My submission is that: (State concisely: the nature of your submission, and clearly indicate whether you support or oppose each separate provision being submitted on, or wish to have amendments made, giving reasons.)	(3) I seek the following decisions from Environment Canterbury: (Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand your concerns.)
Pg 14 Policy 1.8 Pg 14 Policy 1.8	Planned by not yet implemented uses relative to an expiring W.C. should not be restricted to water extraction actually used under the existing W.C.	to allow for continuity of W.C. under the same allocation prior to the expiring consent. This is restrictive to the business planning development wanting to use existing W.C.
Pg 17 Policy 3.8	For a rural farming or land intensive activity, having to finance and prepare a review submissions supposedly every 5 year is unjustifiable and not financially viable.	Removal of policy 3.8
Pg 16 Policy 3.5	Again this provision also penalises the licence holder (New & Existing) to await the decision making processes of the authority. If reference is made to Pg 12 Objective 5 - this policy as stated above is directly opposed.	Removal of this section of partial consent restrictions
