(1) The specific provisions of the Proposed Plan that my submission relates to are:		(2) My submission is that: (include whether you support or oppose the specific provisions or wish to have them amended and the reasons for your views.)		(3) I seek the following decisions from Environment Canterbury: (Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand your concerns.)
Section & Page Number	Sub-section/ Point	Oppose/support (in part or full)	Reasons	
13.5	13.5.29	Oppose	the only source of water for the farm is bore water and small lake out of storage pond to water garden vegetables & lawn - we have used this source for over 150 years farming - there is no town or community supply	That small permitted surface water takes (eg 5 to 8 hrs) be allowed to continue for watering gardens & lawns as allowed in the rest of Canterbury.
13.7.1	13(e)	Oppose	The Eiteltton irrigation scheme has been working very successfully with the present minimum flows in place for irrigators & drain like the always water in the drains. My family have farmed the Longbeach Estate for 150 years being at the bottom of the Canterbury plains the only source of water is surface water. Until this can be replaced permitted surface water takes for stock water & irrigation must stay in place.	That the existing minimum flows as in table 13(e) and in district plan 13418 stay in place until replacement water can be found
