**Trade Competition**

Pursuant to Schedule 1 of the Resource Management Act 1991, a person who could gain an advantage in trade competition through the submission may make a submission only if directly affected by an effect of the proposed policy statement or plan that:

- adversely affects the environment; and
- does not relate to trade competition or the effects of trade competition.

Please tick the sentence that applies to you:

I could not gain an advantage in trade competition through this submission; or  
 I could gain an advantage in trade competition through this submission.

**If you have ticked this box please select one of the following:**

I am directly affected by an effect of the subject matter of the submission  
 I am not directly affected by an effect of the subject matter of the submission

Signature: L Bead Date: 24/10/2014  
(Signature of person making submission or person authorised to sign on behalf of person making the submission)

Please note:  
 (1) all information contained in a submission under the Resource Management Act 1991, including names and addresses for service, becomes public information.

I do not wish to be heard in support of my submission; or  
 I do wish to be heard in support of my submission; and if so,  
 I would be prepared to consider presenting your submission in a joint case with others making a similar submission at any hearing

(1) The specific provisions of the Proposed Plan that my submission relates to are:		(2) My submission is that: (include whether you support or oppose the specific provisions or wish to have them amended and the reasons for your views.)		(3) I seek the following decisions from Environment Canterbury: (Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand your concerns.)
Section & Page Number	Sub-section/ Point	Oppose/support (in part or full)	Reasons	
13-4-5 and 13-5-31	Support	in full	Will allow old surface water takes to be replaced by more reliable deeper groundwater.	
13-5-14	1-5	Support.	Will allow for some intensification subject to consent.	
13-5-16	1	Oppose in current form	All farms should be allowed to operate up to 20kg N loss as a permitted activity even if they have a very low baseline, and are not part of a scheme, and they should not have to apply for a consent to operate at this level.	The <u>and</u> at end of 1 be replaced with <u>or</u>
13-5-34		Oppose	Very few transfers being completed. Recent consents issued on adaptive management allow for temporary transfer. Would not allow for water to be moved around a farm where more than 1 consent held.	Should be a discretionary activity: Not prohibited
