Consultation Point	Proposed Variation 2 to the Proposed Canterbury Land and Water Regional Plan - Section 13 Ashburton (View)
Status	Submitted
Submission Type	Web
Version	0.1

State concisely whether you support or oppose the provision being submitted on, or wish to have amendments made.

My submission is that: Oppose

Please state your reasons for supporting/opposing/amendments sought

My reason(s) for supporting, opposing or requesting amendments to this specific provision are:

We farm at Montalto which is at 400+ metres above sea level and do not feel that the Variation takes account of the differences between altitude, soil type and farming practice compared with the other parts of the Plains. As a result of this we feel that the Variation will not achieve its aims specifically in our area.

Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand the outcome you are seeking.

I seek the following decisions from Environment Canterbury:

We would like ECAN to take account of localised conditions as they exist in our area. In particular we support the Federated Farmers submissions in so far as they apply to our area.
