Dear Sir/Madam

PUBLIC NOTICE OF PROPOSED CANTERBURY AIR REGIONAL PLAN

We are writing to you because you are a resident, ratepayer, or resource consent holder in the Canterbury Region and therefore could be directly affected by the Proposed Canterbury Air Regional Plan (Proposed Air Plan), that will be publicly notified on 28 February 2015.

The Canterbury Regional Council (Environment Canterbury) is publicly notifying the Proposed Air Plan as part of its review of the current Air Plan for Canterbury (Chapter 3 of the Canterbury Natural Resources Regional Plan). Once the Proposed Air Plan becomes operative, Chapter 3 of the Natural Resources Regional Plan will be revoked.

The Proposed Air Plan regulates the discharges to air within the Canterbury Region, including air pollutants, smoke, dust and odour. The Proposed Air Plan contains the objectives, policies and rules relating to discharges from a wide range of activities, including: outdoor burning; industrial, trade and large scale discharges; rural discharges; and, space heating (including home heating).

In June 2014, an Air Plan Review Discussion document was released for consultation outlining some of the proposed changes and inviting community feedback. A series of community meetings were held in Christchurch, Ashburton and Timaru. This feedback has helped inform our planning process.

Formal submissions on the Proposed Air Plan are now being called for and a copy of the Public Notice is enclosed. The Public Notice enclosed sets out how you can view or obtain copies of the Proposed Air Plan, make a submission on the Proposed Air Plan, and the process that will be followed after notification and the closing of submissions.

If you wish to comment on the Proposed Air Plan, you will need to make a submission to Environment Canterbury by **5:00pm on 1 May 2015**.

Please accept our apologies if you have received more than one copy of this letter. Environment Canterbury is required to notify all people in the area that in its opinion are likely to be directly affected by the Proposed Air Plan. This may mean some people receive multiple copies of this notice.

If you have any questions or require further information please contact Customer Services on 0800 329 276 or by email to ecinfo@ecan.govt.nz.

For more information about the Proposed Canterbury Air Regional Plan visit: www.ecan.govt.nz/airplan.

Yours sincerely

Brett Aldridge
Regional Planning Manager

DEAR Sir Mr

I have a heat pump as my only method of heating so have no agenda in writing this note. It seems to me to be grossly hypocritical when the whole of Wigan, Halwell and surrounding areas are in a continuous blanket of dust but then the householder with a fire is not some major development Co and old people like me and many others have to suffer the health affects. My doctor said that the upsurge of chest complaints is related to the ongoing developments so if you will to do something about the environment start with the watering of all building sites.

Yours faithfully Steve Heaslip
