Trade Competition

Pursuant to Schedule 1 of the Resource Management Act 1991, a person who could gain an advantage in trade competition through the submission may make a submission only if directly affected by an effect of the proposed policy statement or plan that:

- a) adversely affects the environment; and
- b) does not relate to trade competition or the effects of trade competition.

Please tick the sentence that applies to you: I could not gain an advantage in trade competition through this submission; or

To Be Heard

Please select the appropriate option from the following: I DO NOT wish to be heard in support of my submission; or

If so

Support Oppose	
Supports in Part or Opposes in Part	

State concisely whether you support or oppose the provision being submitted on, or wish to have amendments made.

My submission is that: Support Oppose

Please state your reasons for supporting/opposing/amendments sought

My reason(s) for supporting, opposing or requesting amendments to this specific provision are:

After experiencing a HUGE natural disaster in a house which was/is damaged and is now hard to heat, and also experiencing being without power for weeks after the February quake, coupled with the snows we have experienced where areas of Christchurch were without power (which I strongly believe to be a severe health hazard to CHCH residents - i.e. to be without heating options for days) has led me to the conclusion that the council should extend the range of applicants who are able to install a low emitting enclosed burner, so that any resident can apply to the council to install a high quality low emission burner and not just residents replacing existing burners in houses damaged by the quake.

Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand the outcome you are seeking.

I seek the following decisions from Environment Canterbury:

The council should extend the range of applicants who are able to install a low emitting enclosed burner, so that any resident can apply to the council to install a high quality low emission burner and not just residents replacing existing burners in houses damaged by the quake.

Air Shed

Which Air Shed does this submission relate to or none
