Dear Sir, I would love to make a submission re. Govt. regional air plan but only to a democratically elected body as I cannot see the point in contributing when a Govt. appointed committee is to make the final decision. In my view, this committee was installed to carry out the dictates of it and its supporters and the greatest breach of democracy I have witnessed in my longish life.

Whatever decision is made it will only be implemented if it fits the Government's policy so your invitation to contribute is a charade.  
Regards Charlie Knowles
