Support Oppose

Supports in Part or Opposes in Part

State concisely whether you support or oppose the provision being submitted on, or wish to have amendments made.

My submission is that: Support Oppose

Please state your reasons for supporting/opposing/amendments sought

My reason(s) for supporting, opposing or requesting amendments to this specific provision are:

We live at the Clearwater Resort, where I am Chairman of the Clearwater Resort Owners Society. We are adjacent to farms (about 500m away), that "truck in" and spray pig effluent on their farms, which I believe is consented. On occasions the odours are very nauseating. The farmers are not complying with the consents, as they spray in calm or nor westerly conditions. Records have been kept and complaints made to ECAN to no avail. A particularly bad event occurred during the NZ Womens Open when International visitors were present. It was a total embarrassment. Some of our residents have had to close all doors and windows and are verging on being physically sick.

If farmers can't comply with consents the practice of transferring effluent from pig farms to residential areas should be halted

Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand the outcome you are seeking.

I seek the following decisions from Environment Canterbury:

Stop pig effluent being sprayed near residential areas

Air Shed

Which Air Shed does this submission relate to or none

Choose one of the following three
