To whom it May concern

Dear Sir - Madam

I the under signed live at 134 Ashley St, Rangiora, I am a 74 year old and live on the pension.

Twenty years ago we bought a dual burner to replace a old coal range. We found by using properly cured & dry wood and by using the flues properly we can make the fire burn clean. Once the fire base is set there is little or no smoke.

The chimney is swept every year the chimney sweep has said the whole unit is in good order.

The wood mixture is dry poplar and dry bluegum. The fire is let go out at night if needed lit next morning.

If a field officer wants to inspect it during use all they have to do is to ring 313-7537

I am a sufferer of asthma I find electric heaters do not help my condition.

My house is on the edge of the northern boundary of Rangiora. Heavy trucks are now using the road a lot more, leaving more heavy smoke.

I would like to keep the burners as by using dry wood the heat is better than trying to burn wet wood.

Yours Sincerely
P. A. Lepton
