Trade Competition

Pursuant to Schedule 1 of the Resource Management Act 1991, a person who could gain an advantage in trade competition through the submission may make a submission only if directly affected by an effect of the proposed policy statement or plan that:

- a) adversely affects the environment; and
- b) does not relate to trade competition or the effects of trade competition.

Please tick the sentence that applies to you:

I could not gain an advantage in trade competition through this submission; or

I could gain an advantage in trade competition through this submission. *If you have ticked this box please select one of the following:*

- I am directly affected by an effect of the subject matter of the submission
- I am not directly affected by an effect of the subject matter of the submission

Signature: [Signature] Date: 30-4-15

(Signature of person making submission or person authorised to sign on behalf of person making the submission)

Please note:
(1) all information contained in a submission under the Resource Management Act 1991, including names and addresses for service, becomes public information.

B

I do not wish to be heard in support of my submission; or

I do wish to be heard in support of my submission; and if so,

I would be prepared to consider presenting your submission in a joint case with others making a similar submission at any hearing

<p>C (1) The specific provisions of the proposal that my submission relates to are: (Specify page number and subsection numbering for each separate provision).</p>	<p>(2) My submission is that: (State concisely whether you support or oppose each separate provision being submitted on, or wish to have amendments made and the reasons for your views.)</p>	<p>(3) I seek the following decisions from Environment Canterbury: (Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand your concerns.)</p>
<p>Modern, low emission wood burners to be allowed in high wind areas of the city. To be allowed in homes built in the last 20 years on hill suburbs.</p>	<p>I wish to submit that low emission/nil emission woodburners be allowed in Christchurch suburbs which are elevated well above the low lying areas of the city.</p>	<p>To allow modern low-emission - nil emission wood burners in the Christchurch hill suburbs as an alternative heat source to electric power/solar power.</p>
<p>To be allowed in circumstances where health issues preclude the use of "unnatural" heating options such as heat pumps.</p>	<p>The reason for this is that these modern, low emission burners are about to be approved in the city and should be available in modern homes built in the suburbs from Scarborough to Kennedy's Bush.</p>	<p>Due to the high winds in these elevated areas of the city, the impact on the air quality of the city would be nil. Therefore, it makes sense to use these modern burners to take pressure off the national grid.</p>
<p>The Speedy introduction of woodburners that equal the best that Europe can produce. To be allowed in hill suburbs from Scarborough to Kennedy's Bush.</p>	<p>The use of these wood burners would take pressure off the National grid where power is under threat due to low take levels or adverse weather conditions.</p>	<p>To introduce quickly to the heating market, the proposed wood burner currently under testing</p>
