### Trade Competition

Pursuant to Schedule 1 of the Resource Management Act 1991, a person who could gain an advantage in trade competition through the submission may make a submission only if directly affected by an effect of the proposed policy statement or plan that:

- a) adversely affects the environment; and
- b) does not relate to trade competition or the effects of trade competition.

Please tick the sentence that applies to you:

- I could not gain an advantage in trade competition through this submission; or
- I could gain an advantage in trade competition through this submission. **If you have ticked this box please select one of the following:**
  - I am directly affected by an effect of the subject matter of the submission
  - I am not directly affected by an effect of the subject matter of the submission

Signature: Kevin Smith Date: 1/5/15

(Signature of person making submission or person authorised to sign on behalf of person making the submission)

Please note:

(1) all information contained in a submission under the Resource Management Act 1991, including names and addresses for service, becomes public information.

**B**

- I do not wish to be heard in support of my submission; or
- I do wish to be heard in support of my submission; and if so,
- I would be prepared to consider presenting your submission in a joint case with others making a similar submission at any hearing

Section (7)

C (1) The specific provisions of the proposal that my submission relates to are: (Specify page number and subsection numbering for each separate provision).	(2) My submission is that: (State concisely whether you support or oppose each separate provision being submitted on, or wish to have amendments made and the reasons for your views.)	(3) I seek the following decisions from Environment Canterbury: (Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand your concerns.)
Section (7) 7.89	I am opposed to your decision to stop me from using my burner when it passes the 15yrs timeframe of installation, or 1 Jan 2017. It is not the age of the burner that is causing the problem of air pollution, it is what people burn. Even an open fireplace can burn fuel cleanly if used properly.	There is no need to replace a burner as long as it is in a sound condition. The sale of wet or green wood, substandard coal should be prohibited. Make people more aware of the hazards of burning the above, and the burning of other products as listed in 7.4

Add further pages as required.
