Support Oppose	
Supports in Part or Opposes in Part	

State concisely whether you support or oppose the provision being submitted on, or wish to have amendments made.

My submission is that: Support Oppose

Please state your reasons for supporting/opposing/amendments sought

My reason(s) for supporting, opposing or requesting amendments to this specific provision are:

Part 1 be removed from schedule 7 in its entirety I believe that the proposal of having all wood burner installers on a central public register is a good idea, as this will restrict unqualified installers putting in wood fires. However I believe a joint body from both the HHA and the PGDB will be the only true representation of the wood fire installers. This would allow both organisations to record their members on a public register and issue yearly registrations. The current wording says any competent person may install a wood burner. This is open to interpretation - what or who qualifies as competent?? I personally pay money each year to the PGDB to be registered. This in my opinion is enough to qualify as competent along with my years in the industry. My record of qualifications is listed on the public register for all to see, however if this proposal is passed does this make me less competent because I am not a full member of the HHA? For me this proposal is opposed
