Support Oppose	
	Supports in Part or Opposes in Part

State concisely whether you support or oppose the provision being submitted on, or wish to have amendments made.

My submission is that: . Support

Please state your reasons for supporting/opposing/amendments sought

My reason(s) for supporting, opposing or requesting amendments to this specific provision are:

The Avonhead Community Group Inc. (the ACG) focuses on the sustainable development of Avonhead and its surrounding suburbs in all spheres of planning and implementation. It seeks to ensure that air pollution in Avonhead and its surrounding suburbs remains at a minimal level. The post-earthquake increase in traffic in Avonhead and its surrounding suburbs has caused a considerable increase in air pollution. The air quality has significantly deteriorated due to suspended particles and emissions. The ACG believes that any plan change in this area from residential and rural to industrial or business would cause further deterioration of the air quality and would adversely affect the health of local residents.

The ACG is pleased to note that the proposed plan map identifies air zones that are consistent with the current use of the land for residential and rural living. The ACG hopes that the proposed air zones will preclude the possibility of a significant increase in traffic or human-intense developments in the area to the east of Russley Road between Memorial Avenue and Yaldhurst Road.
