Support Oppose

Supports in Part or Opposes in Part

State concisely whether you support or oppose the provision being submitted on, or wish to have amendments made.

My submission is that: . Support

Please state your reasons for supporting/opposing/amendments sought

My reason(s) for supporting, opposing or requesting amendments to this specific provision are:

The spraying of effluent by dairy farmers can be a big issue for neighbours, it is good to spray the effluent on to land so that the nutrients are not wasted, however the issue is it is sprayed on the same bit of land repeatedly and even when the ground is already sodden and the odour is affecting the quality of life for neighbours. because it is intermittent it is hard to complain and get an Ecan officer out at the right time to assess the odour. The effluent should be treated to the stage that it no longer smells before it is sprayed onto land.

Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand the outcome you are seeking.

I seek the following decisions from Environment Canterbury:

Farmers should be required to work towards a system of effluent treatment that treats the effluent so that it no longer smells.

Air Shed

Which Air Shed does this submission relate to or none
