Support Oppose

Supports in Part or Opposes in Part

State concisely whether you support or oppose the provision being submitted on, or wish to have amendments made.

My submission is that: Support Oppose

Please state your reasons for supporting/opposing/amendments sought

My reason(s) for supporting, opposing or requesting amendments to this specific provision are:

The 15 year limit is arbitrary and if the burner is still compliant to the emission criteria it is unfair to force someone to have the otherwise compliant burner replaced.

This is made sepecially apparent if the burner is a secondary source of heating as people will be forced to replcae near new burners every 15 years for no other reson than the peice of text in this document

Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand the outcome you are seeking.

I seek the following decisions from Environment Canterbury:

Points 3 and 4 to either be removed or replaced with specific emission criteria as opposed to arbitrary dates and timescales.

Add provisions to allow burners as a secondary source of heating.

Air Shed

Which Air Shed does this submission relate to or none

Choose one of the following three
