Support Oppose

Supports in Part or Opposes in Part

State concisely whether you support or oppose the provision being submitted on, or wish to have amendments made.

My submission is that: Support Oppose

Please state your reasons for supporting/opposing/amendments sought

My reason(s) for supporting, opposing or requesting amendments to this specific provision are:

The main reasons for limiting the use of certain types of log burners is:

The cost of alternative heating e.g electricity is too expensive

The cost of new low emission wood burners is too high for the average home owner

There are other reasons why we have bad readings

- 1 No wind and cloud cover does not allow chimney smoke to disperse into the atmosphere
- 2 Diesel vehicles produce pollution
- 3 Diesel or coal-fired generators produce pollution e.g those used for large hospitals and factories
- 4 Burning off rubbish/green waste from farms on the out-skirts of the town should be limited to a certain distance from a town
- 5 Burning off from farms/life style blocks often drifts over town and may hang around due to low winds

Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand the outcome you are seeking.

I seek the following decisions from Environment Canterbury:

Keep low emission wood burners to an affordable price

Convert hospitals and factories to electricity or gas

Limit on-farm fires to a radius of 5k of a town

Air Shed

Which Air Shed does this submission relate to or none

Choose one of the following three

I seek the following decisions from Environment Canterbury:

Convert hospitals and factories to electricity or gas

Please note where the incorrect submission point was, For Example - Was at Consultation Point 11.5.7 and you have then moved it to 11.59.7

You MUST record the original location of the incorrect point

Planner - Incorrect Location of Submission Point

Insert provisions that will require hospitals and factories to convert to electricity or gas.

Please summarise decision requested

Planner - Summary of Decision Requested

Insert provisions that will ensure that low emission wood burners are an affordable price.

Air Shed
