Support Oppose

Supports in Part or Opposes in Part

State concisely whether you support or oppose the provision being submitted on, or wish to have amendments made.

My submission is that: Support Oppose

Please state your reasons for supporting/opposing/amendments sought

My reason(s) for supporting, opposing or requesting amendments to this specific provision are:

I have purchased a property in Southbridge for myself and my daughter to live in. The property has an older log burner (inset) and an open fire place. We use the log burner for our home heating and heating our hotwater over the winter months, which has been fantastic to keep our electricity costs down. Our house has a heat transfer system, and when it was renovated, prior to our purchase, it was insulated in the walls and the ceiling, however the floor was not able to be done, due to the fact, the house sits too low to the ground to get underneath. We have good quality drapes for the windows. All of this was considered when I purchased the property as I am on a fixed income, and having recently seperated, had to get the best bang for my buck with what I had availabe to me.

Please note I do not use the open fire, which is in the main bedroom.

I cannot afford to replace the log burner in our lounge, and I cannot afford to be without a log burner, as in the last three weeks, we have had three power cuts. In the middle of winter how on earth are we to keep warm? At least with the log burner, we have heat and we have hot water.

I totally oppose this plan. For those of us on a single fixed income, trying to support their children, we don't have the flexibility to just up and a replace a log burner that is working perfectly well.

Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand the outcome you are seeking.

I seek the following decisions from Environment Canterbury:

Decline the provision around home heating and age of log burners.

Air Shed

Which Air Shed does this submission relate to or none
