Support Oppose	
Supports in Part or Opposes in Part	

State concisely whether you support or oppose the provision being submitted on, or wish to have amendments made.

My submission is that: Support Oppose

Please state your reasons for supporting/opposing/amendments sought

My reason(s) for supporting, opposing or requesting amendments to this specific provision are:

Although we appose we realize that adjustments to reduce Nitrogen leaching need to be made but it is our opinion that in this case it is too radical to the degree that it will affect farm production in a negative sense and therefore threaten out livelihood and with it more than 40 farming families who work in our operation.

Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand the outcome you are seeking.

I seek the following decisions from Environment Canterbury:

We would like Ecan to consider adjusting the leaching levels in a more economically sustainable level so that it will be acceptable to everyone because dairy farmers have made huge financial investments in their businesses and it is unfair to threaten their livelihoods.

Choose one of the following three
