Your submission

What do you want Environment Canterbury to do?

Make the farming sector pay for the proposed water charges and keep stricter controls on dairy and irrigation use. Don't fluoridate our water ours is unique. Cut down on pollution caused by cars buses etc, lower the rates to make it easier for retirees

Democratically elect the next Environment Council as was promised a couple of years ago.

Co-ordinate road repairs better so its not being done twice.

Be accountable for water quality, and dont penalise people who

bought their properties in good faith, now being penalised. Then find later on the land should not have been used for residential properties. Historically, the council has all the information at hand about land use, liquefaction probability etc so when issuing long term plans, take these factors into account when dealing with property development. No surprises down the track, like quarries that have the potential to pollute water.	

Continue your submission on additional pages if necessary.
