Continued from previous page.

Your submission	What do you want Environment Canterbury to do?
<p>It is essential that we retain clean air in the rural areas. There are questionable practices regarding the spraying of effluent out of a centre pivot and the resultant air pollution and smell accompanying it. This is not acceptable especially as this unwanted particulate matter lands in areas that do not want it eg organic farms.</p>	<p>Monitor closely such discharges. Act when complaints are made. Forbid this practice where there are close properties that can be affected by wind carried particulate matter.</p>

Continue your submission on additional pages if necessary.
