Your submission	<p>Governance. Total elected representation.</p> <p>Water management. The rivers and lakes in Canterbury are a disgrace, requiring drastic action to improve their water quality urgently.</p> <p>Public transport. Not enough access to urban public transport in available routes and frequency of service.</p> <p>Land transport. No mention of rail transport of goods and promoting the move of goods traffic off of SH 1 onto rail transport.</p> <p>Air quality. Not enough attention being given to the standard of rural air quality.</p>

What do you want Environment Canterbury to do?

Governance.

Commissioners to resign and to be replaced totally by ELECTED representatives.

Water management.

1. Impose a moratorium on any consents for dairy farm conversions.
2. Mandatory stock fencing of all waterways.
3. Restrict fertilizer applications on farm land until local water quality has improved to at least to safe swimming and recreational standards.

TRY HARDER !

Public transport.

Improve urban public transport bus services in the region by subsidizing improved routes and frequency of services.

TRY HARDER !

Land transport.

Promote and offer incentives to get goods traffic moved by rail and reduce road movement of goods from the region's State Highway.

TRY HARDER !

Air quality.

Raise the standard of rural air quality to that of the European Union and BAN RURAL BURN OFFS !

TRY HARDER.
