Your submission	<p>Setting the Rules</p> <p>I would like to see action with some teeth on infringements of rules under the Resource Management Act to ensure compliance before it is too late (if not already) for our waterways. Robust rules in planning documents exist but improved outcomes will only result if firm responses and penalties are implemented. Self reporting of water quality samples is a farce. More officers/hydrologists need to be engaged to police water quality and use.</p> <p>No I would not like to pay more for ECan to respond to discharge events. I would like to see the polluters pay.</p>
What do you want Environment Canterbury to do?	<p>As above. Sorry I dont understand what a submission entails. I wanted to provide feedback but am unsure of the procedure.</p>
