Your submission

What do you want Environment Canterbury to do?

I am dismayed at the huge "anchor projects" - they are a luxury the city can't afford. Please provide homes first to those who have lost them in the quakes; & then to the homeless living on the streets. Quickly making homes & land available to reduce the cost of building & renting.

I bought & relocated a cottage from Amberley & am horrified at the permits & consents cost.

I am horrified that I cannot have a normal septic tank - has to have A MOTOR - you should see the mess the system has made to my patch of land.

Continued on next page

I think Council / Environment Canterbury / Govt
are all very ignorant & immoral.

What do you want Environment Canterbury to do?

I am dismayed that homes that are demolished are not allowed to have their good materials reused - stained glass windows, any windows should be reused. Kauri timbers should be reused. Not to do so is immoral in my view. To me it seems that the building materials are a finite resource & should be treated with respect.

On the other hand, the 4 years since the earthquakes seem to have been wasted; the city is still a moon scape. Other centres with worse damage have rebuilt much quicker

Stop charging like wounded bulls for permits, consents.

I am being charged \$5,000 "bond" for the sealing of my access which is actually sealed.

I have already paid permit after permit & am totally sick & tired of it; it has reduced my ability to pay for repairs - the actual work.

I would like to see a multi purpose bridle trail from Brighton to Halswell - pass through the city

Continue your submission on additional pages if necessary.

I would love to see a gondola from the Port hills to Rangiora!
