Your submission

Lake Tekapo Regional Park of 166 hectare is managed by the Society in partnership with Ecan .I support the plan for the next ten years if the Land Management of the past ,and a coordinated transition of Governance , continue to provide the support given for the past six years .

We require continued support , both funding , and technical input ,for our biosecurity programme, pest eradication ,noxious weed removal , and recreational activities .they have also assisted with development of our Park.

The LAND USE must remain for soil conservation and Recreational use only ,,and for Park Use.,in the event of any REGIONAL REZONING .REVIEW . It is regarded as a valuable Community Asset.

On this basis,I wish Ecan well on their forward looking programme.

What do you want Environment  
Canterbury to do?

Remain in Partnership with Lake TEKAPO Regional Park  
Society .
