Your name MARY McCAMMON

Your organisation and role in it (if applicable) _____

Date

4/4/15

Tick the box if you wish to discuss your submission in person ☐

I do not wish my contact details to be made public ☐

All submissions are public documents. Copies will be published on the Environment Canterbury website.

Your submission

What do you want Environment Canterbury to do?

The ideas and aims are great. I feel that, in water management, the companies making profits from the dairy industry should be the guardians of the waterways, not just rate payers + farmers.

Lobby government to impose levies on companies that use natural resources, to provide adequate funding for their protection or restoration commensurate to the benefits they obtain from them.

Degradation of water, land or air caused by industry or agriculture

Continued from previous page.

Your submission	What do you want Environment Canterbury to do?
Must be addressed by the polluter.	Educate, yes, but move on swiftly to imposing pre-flagged penalties for pollution. Involve polluters and communities in restoration projects
Transport. All ideas are good. Increasing traffic jams are polluting, stressful + inefficient.	Work towards boosting rail, for freight + commuters.
Coastal hazards.	Give us info about projected sea-level rise.
Rubbish on beaches.	More bins! + Education about plastic in oceans.
Pollution. I am much more concerned about farm discharge to waterways than a smoky chimney in a house	→ penalise → educate + assist

Continue your submission on additional pages if necessary.
