What do you want Environment Canterbury to do?

Please will you build up a list of plants + trees that counteract pollution best. International plants + trees ✓ not a biased N.Z. natives only list. Birds love + need a variety. Is there a way of putting a device in a chimney that will scream out like a smoke alarm if the open fire or burner is being used offensively + pollutes? To get accurate readings on air pollutions and what causes them. Wrongly used burners, ie stuffing them with house hold waste that smells terribly and gang drug pollution needs urgent dealing with day or night.

I'm curious! what fuel used in vehicles carries the most pollutant?

Are there still shellfish ones dumping illegal mixtures over the Canterbury and other areas?

Continued on next page *by airplanes*

Stop farmers & others from watering after 8am and before 8pm and from using irrigators that spurt water high in the air instead of at stock eating length. Add not longer than 20mins flowing one area.

Can the happy children on your brochure swim? Their ear positions look awkward, and too big for them!

Your submission	What do you want Environment Canterbury to do?
Is it possible to clean up what makes Humphreys drive long before it gets smelly (for fertilizer recharges??) Please take the eggs of ducks and swans around lake Ellesmere when in season instead of mass killing the grown birds so ruthlessly. Don't kill chicks etc. Replant colourful flowers around the cliffs and bases of Sumner - especially perfumed & hardy ones. It could be done with shangies & paper seed cartidges. Please will you stop all ugly and violent "art" from being displayed publicly in Christchurch & suburbs areas. They lead to aggressiveness in troublesome people & fear in other & bad atmosphere all round. Drinking fountains in playgrounds (linear solid ones would be good). <u>No factory nor farm waste in our Rivers Springs or lakes ever!</u> Encourage and insist on people planting home gardens of fruit and veges to feed their families healthily instead of depending on government aid. <u>Children need home gardens.</u> Encourage people to hang plastic bowls from trees or lines to put waste food in for birds especially thru spring & winter - too much	To bring back The Queens chain to help protect our rivers and lakes and to stop people building along cliff tops thereby putting contractors and themselves in danger and obstructing scenic views. <u>PUT MORE CLIMB OF NZ TREES ON THE PORT HILL WILDERNESS</u> as in Tassie and unruly shrubs etc. is all out of place in cities around the world. It's unsightly here too. Bring back the mowed lawn and Chinese willows that once grace Christchurch's Avon & Heathcote rivers so effectively. Tourists loved it. Asian visitors especially Chinese would love seeing these much loved trees and lawn here. Nothing can out class them. <u>TO KEEP OUR RIVER MOUTHS PREGGED.</u> Charge people for dumping goods & rubbish in our rivers for the total cost of cleaning up after them. Use surveillance cameras in repeat offending areas. Guard and protect all the non-Māori trees that beautify our roadsides from racist destroyers. These trees come from many of our tour countries and it's their job to see them grow here. A little bit of hard work.

Continue your submission on additional pages if necessary.

is thrown away.

Don't let people get away with turning dogs loose in city or suburban areas to pollute areas & kill other animals.
