Your submission	What do you want Environment Canterbury to do?
① WATER MANAGEMENT Over the years you have failed dismally to manage our waterways and you want a further \$38m?	give the responsibility of our waterways to an organisation with better expertise than you possess.
② ENCOURAGE PEOPLE TO TAKE THE BUS COSTING AN ADDITIONAL \$3m? If the service is convenient, practical & financially viable to the user people will use it. Why do you need an extra \$3m to fund that out.	local government should be in charge of transport not E.C.

Your submission	What do you want Environment Canterbury to do?
(3) TACKLING AIR POLLUTION \$21.5M. The way you tackled this problem in Christchurch put many lives at risk after the earthquake. Electricity is not dependable in a disaster, log fires are essential	ensure to the best of your ability that only dry wood is sold. Other than that we hope you've learned from the Christchurch cock-up.
(4) \$7M for more accessible information	what you propose is a duplication of local body systems which are already in place.
	Everything you do could be done by local government. What you do you do not do well and in answer to your question above I would like you to close down and this would save us poor tax payers considerable dollars.

Continue your submission on additional pages if necessary.
