I do not wish my contact details to be made public ☐

All submissions are public documents. Copies will be published on the Environment Canterbury website.

Your submission

What do you want Environment Canterbury to do?

I wish to make a submission in regard to public transport. Firstly I believe that changes to bus routes are being made more frequently than necessary and the latest changes I have not heard anyone express pleasure at. These comments I have heard only as a bus user talking to other bus users. Buses need massive upgrading and any number of drivers need better training

Continued from previous page.

Your submission

What do you want Environment Canterbury to do?

in regard to knowing about routes etc and sometimes in people skills. I believe that the Avon River needed only green grass replacement and not more concrete and excessive grass plantings would come up with a broad at its edge. I believe that the tram lines have been badly placed and are often not pedestrian friendly. An quality I believe should also include solar panels being helped to be placed on rental homes in a help to break power monopoly. Even better regulations for big businesses needed and better help for electrical heating for the low income of our city. If we can help other areas of Canterbury such as Timaru etc when we can we should. Wetlands and conservation seems to me to be coming along but who wants to walk where poison is laid and more information about what is being put in such areas and culling, alterations etc need public discussion before not after.

Continue your submission on additional pages if necessary.
