Your submission	What do you want Environment Canterbury to do?
I would like to see less draining on the Canterbury Plains Catchment area as its getting to the point it is starting to affect ground water in private wells for drinking water etc which will become a major health issue if not capped at current rates, we never had this problem of poor domestic water back 20-30 yrs ago and I have a small artesian well on my	Cap or stop all new draining conversions in the hanger Canterbury area and not allow existing farms to enlarge more than they are now I know of 2 affected owners who by up farms and/or those property & enlarge the farm by some way across

Your submission	What do you want Environment Canterbury to do?
place and it used to be excellent for drinking water and knows its only the Boileable and Thats after the rivers have up to flush the sediment on what ever you call it when it comes up clean again but still only boileable like I say.	plus they pull out all the shelter belt Sedges which where put in soon a reason I.E the prevailing winds we get here like strong North - North west winds a from the South by gusts as much as 100kphs of all kinds wind shelter from wind a weather conditions. Thankyou
