What do you want Environment Canterbury to do?

Kia ora,

when i look @ the state of the Heathcote River where it flows thru. Centennial Spreydon Domain, let alone the rivers that flow thru. Canterbury's Dairy Country, all i can assume is that the only "Environment" in ECan is in the name. It strikes me also that this is just another glossy publication where countless dollars are spent in fooling people, talking down to people, & generally taking no notice of people.

i note that commissioners such as Margaret Bayley et al are paid large salaries to act apparently as ambassadors for the

dairy industry. & apologists as well it would seem.

this document is meaningless & simply shifts around real issues of power, environmental sustainability & responsibility, & shows no realistic long-term planning whatsoever.

it is a disempowering of people to allow a select group of people with wealth to make a move @ the expense of everyone else.

Consider all the new Housing Estates in CMC. in every case, from Rolleston - Lincoln - Halswell/Wigram, terror-farming has occurred in the wanton & complete destruction of countless mature trees such as macrocarpa, pine, poplar because that is the most cost-effective for Real Estate (& Dairy) Development whereby all the rest of us pay for this environmental desecration long-term.

Same with H₂O allocation & use.

Consider Gelita in Woodston.

i have no faith or confidence in eCan @ all. as far as i can ascertain it's but a stooge organisation for governments that think only in \$s, not people & species.

& luckily we run out of time & patience to look at Climate Change. i think this is a pathetic, unhelpful document,

māku noa nā,
