Support Oppose

Supports in Part or Opposes in Part

State concisely whether you support or oppose the provision being submitted on, or wish to have amendments made.

My submission is that: . Support

Please state your reasons for supporting/opposing/amendments sought

My reason(s) for supporting, opposing or requesting amendments to this specific provision are:

It is critical that emissions to air are controlled and monitored.

Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand the outcome you are seeking.

I seek the following decisions from Environment Canterbury:

The document is complex for the lay person. Cremation Society want to make sure that consideration with new rules for the following:

Longtime existing activity like the Crematoriums is always considered in future consents.

To understand reverse affects that should not prejudice the Crematoriums as the Crematoriums were in remote spaces when set up but now residential housing has got closer to the Crematoriums knowing the Crematoiriums are a critical supply to Canterbury.

That the land which the Crematoriums are on being Conservation 4 land where it is critical this zoning is considered in the definitions of the rules.

We cannot fully understand if zoning is critical in this plan however we suggest that Conservation 4 is considered to be a zone where there is industry.
