Support Oppose	
Supports in Part or Opposes in Part	

State concisely whether you support or oppose the provision being submitted on, or wish to have amendments made.

My submission is that: . Oppose

Please state your reasons for supporting/opposing/amendments sought

My reason(s) for supporting, opposing or requesting amendments to this specific provision are:

While in principle I have no objections to installers being accredited I feel that the time frame indicated here is too short. I believe that there needs to be a grace period to give installers time to gain their NZHHA accreditation. This could take up to a year to allow the installers to attend the introductory course, complete the specified number of installations and attend the follow-up technicians course. I would like the proposal to be amended to allow for a one-year period from the time of introduction until this becomes mandatory. This way residents will be able to continue to have fires installed and installers will be able to continue in their businesses.
