Support Oppose

Supports in Part or Opposes in Part

State concisely whether you support or oppose the provision being submitted on, or wish to have amendments made.

My submission is that: Support Oppose

Please state your reasons for supporting/opposing/amendments sought

My reason(s) for supporting, opposing or requesting amendments to this specific provision are:

I feel that parts of sumner and scarborough (specifically the hill areas) should be excluded from the clean air zone as they do not impact on the air quality of the city of christchurch and are above the inversion layer and do not consitute a clean air hazard area. I feel that low emission log burners should be able to be used in the hill areas here (specifically Richmond Hill Road, Clifton Terrace and Scarborough).

Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand the outcome you are seeking.

I seek the following decisions from Environment Canterbury:

To exclude the Sumner/Scarborough hill areas from the clean air zone or allow the use of low emission log burners in these hill areas.
