My submission is that: Support Oppose

Please state your reasons for supporting/opposing/amendments sought

My reason(s) for supporting, opposing or requesting amendments to this specific provision are:

we live on a rural life style block we need to be able to have out door fires to keep our prperty tidy ie hedge trimming do expencive to mulch we have to be able to burn it. Like all good neighbour we consult with each other on burning days as to not effect our neighbours. Hedge trimming left would soon become a fire hazzard. We also need our log burners to heat our home, we always make sure a wood is dry. In our area we have alot of power cuts which can take our power out for days at a time we need our fires for heating and cooking. I dont know what we would have done with out our burner in the earthquakes power was off for days we lost all our food in freezer but least we we able to stay warm. We live in the air port zone what about the condaminants from the planes.
