<b>Support Oppose</b>	
Supports in Part or Opposes in Part	

*State concisely whether you support or oppose the provision being submitted on, or wish to have amendments made.*

**My submission is that:**  Support

*Please state your reasons for supporting/opposing/amendments sought*

**My reason(s) for supporting, opposing or requesting amendments to this specific provision are:**

I support what you are trying to do in principal with home heating and think you have good initiatives regarding having "good wood providers" for those homes that use woodburners but I want to extend my current woodburner certificate of compliance until such time as you have a new low emission burner available to purchase. I do not want another form of heating that relies on electricity. I want a wood burner and should be allowed to have one. The one I currently have is relatively modern and i will be happy to look at swapping it to a low emission burner when one becomes available but I believe everyone should be allowed to keep their existing one until such time as the new burners are on the market at a reasonable cost.

*Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand the outcome you are seeking.*

**I seek the following decisions from Environment Canterbury:**

A decision to allow homes with existing wood burners to keep those burners and extend their certificates of compliance until such time as a low emission fire is available to purchase at a reasonable price point.

**Air Shed**

**Which Air Shed does this submission relate to or none**

**Choose one of the following three**

**Tick relevant topics**

**I seek the following decisions from Environment Canterbury:**

A decision to allow homes with existing wood burners to keep those burners and extend their certificates of compliance until such time as a low emission fire is available to purchase at a reasonable price point.

*Please summarise decision requested*

**Planner - Summary of Decision Requested**

Amend policies and rules to allow homes with existing wood burners to extend certificates of compliance until an [ultra] low emission burner is available to purchase at a reasonable price.

**Air Shed**

**Which Air Shed does this submission relate to or none** . All Air Sheds . Home Heating
