Environment Center busy,  
air Regional Plan,

Dear Sir,

I have an older Log burner,  
which I burn dry wood in  
(Kept in shed) It also heats my  
water, which is a big saving on  
power bills. It also heats my  
water, as well as the whole  
house. I have checked outside  
when the fire is going, & there  
is no black smoke. I have  
the chimney cleaned every year.

There is nothing wrong with  
my Log Burner which is still  
in good order. My wood costs me  
\$120 a year, & there is no way I  
could heat the whole house, & power  
for that.

I am 84 years old and on  
3/4 the Super pension, and  
cannot afford to replace  
the log burner, to keep warm  
when there is nothing wrong  
with the one I have got.  
I am opposing this plan.

M. E. G. Thomas.
