 I do wish to be heard in support of my submission; and if so,
 I would be prepared to consider presenting your submission in a joint case with others making a similar submission at any hearing

(1) The specific provisions of the Proposed Plan that my submission relates to are:		(2) My submission is that: <i>(include whether you support or oppose the specific provisions or wish to have them amended and the reasons for your views.)</i>		(3) I seek the following decisions from Environment Canterbury: <i>(Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand your concerns.)</i>
Section & Page Number	Sub-section/ Point	Oppose/support (in part or full)	Reasons	
S2.9 P2-1	Definition: Animal Effluent	Support	<p>The addition of a definition for Animal Effluent and the inclusion of clarification that it does not include incidental animal effluent present in livestock processing waste streams is supported.</p> <p>Our original submission on the Land and Water Regional Plan included a suggestion for a definition of Animal effluent, as the term was used but not defined.</p> <p>The specific exclusion of processing waste streams from the definition is also supported, as due to the nature of waste streams from meat processing operations it is not always clear whether the intent is for rules to apply in addition to or instead of with Industrial trade process specific rules.</p>	Retain definition including clarification that it does not include incidental animal effluent present in livestock processing waste streams.
S2.9 P2-4	Definition: Wastewater	Support	<p>The amended definition for Wastewater is supported.</p> <p>In the original submission on the Land and Water Regional Plan, Silver Fern Farms submitted that it was not clear whether the term wastewater was to include industrial waste streams and whether the associated wastewater rules would apply to industrial processes.</p> <p>The amended definition provides the clarification that industrial wastewater is not included and therefore associated wastewater rules do not apply to our processing wastewater.</p>	Retain definition including clarification that it does not include industrial / trade processing waste streams.
