Introduction

- 1 My full name is Errol Albert Begg.
- 2 I prepared a statement of evidence, dated 23 February 2016, on behalf of Erralyn Farm Limited in relation to its submission on proposed Plan Change 4 (Omnibus) to the Canterbury Regional Land and Water Plan.
- 3 I wish to make the following corrections and updates to that statement of evidence:

Paragraph 21.1 and Annexure D

- 4 Paragraph 2.1 of my statement of evidence should read as follows:

Willow pole and other tree plantings along ~~two-thirds~~ of the Property's entire River frontage (shown as a red line). These plantings were originally established shortly after we purchased the Property.

- 5 I have attached as **Annexure A** a revised version of Page 1 of Annexure D to my statement of evidence, to reflect this correction.

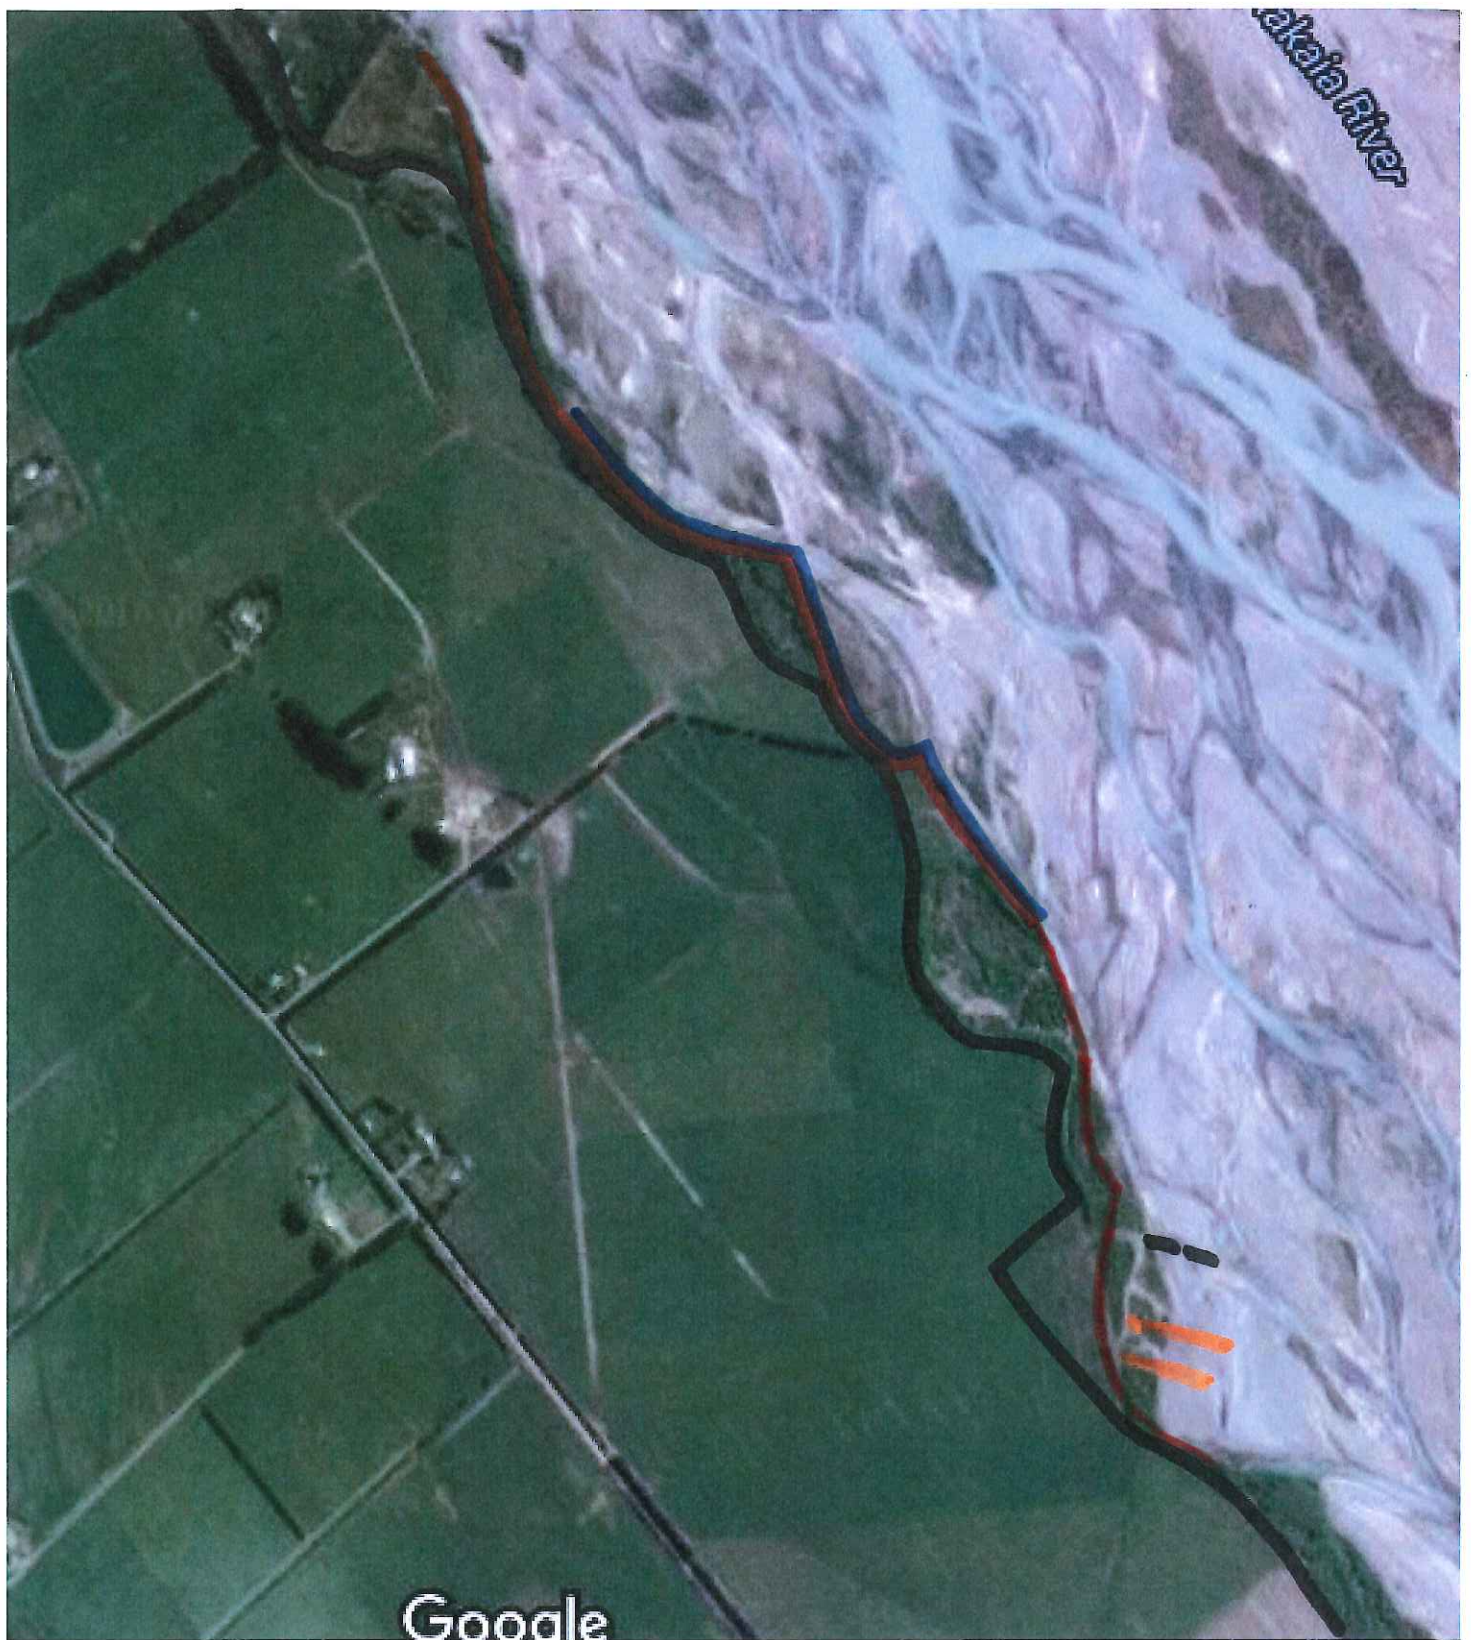

Flood Protection Works in the Lower Rakaia River

- 6 At paragraph 31 of my statement of evidence, I refer to and attach an extract from ECan's Rakaia River Rating District Asset Management Plan.
- 7 Since preparing my statement of evidence, I have located photos of the Lower Rakaia River that were taken in 1973/74 and 2012. These photos show how the River has changed over that time period and erosion that has occurred on the southern side of the River, as discussed in the ECan Asset Management Plan. I have attached those photos as **Annexure B**.
