Te Runanga o Ngai Tahu, Ngai Tahu Farming Limited, and Nga Runanga PO Box 13-046 Christchurch	Policies 4.37, 4.38, new Policy 15B.4.xx	Although it is acknowledged that in some circumstances a reduction in Nitrogen leaching over time is desirable, it is not appropriate that specific, timebound, modelled loss rate reductions are provided as a rule in a Plan as proposed. Such specified reductions may not be economically viable, feasible, or achievable in all circumstances.	Oppose
	Definition of Accredited Farm Consultant	WIC supports the concept of including cultural values in Farm Environment Plans (where appropriate). However, the change in definition of Accredited Farm Consultant as suggested, is opposed. There is no information available to determine what an approved course may be, how this could be delivered, or what the associated costs may be. Another mechanism to address this issue may be more appropriate than the change sought.	Oppose
