1.2 Regional Documents

You need to look at the objectives and policies of the below documents and identify those you consider to be relevant to your proposal and briefly describe how your proposal meets them. Tick all that apply. Please provide an explanation where relevant.

To help you answer this question, click on the links below and read the objectives and policies in the sections(s) you consider your activity to come under and reference below. If you are not sure how to work out which ones might be relevant, please contact Customer Services who can help provide advice.

Objectives and Policies

Please indicate which regulations, objectives and policies are relevant to your proposal and provide brief comments (where relevant) to demonstrate why it is relevant and whether your proposal is consistent with it.

Proposed Canterbury Air Regional Plan

Objectives

Y N N/A

- Objective 5.1 – Where air quality provides for people's health and wellbeing, it is maintained
- Objective 5.2 – Where air quality does not provide for people's health and wellbeing, it is improved over time
- Objective 5.3 – Air quality protects the mauri/life supporting capacity of the environment
- Objective 5.4 – Discharges to air are managed to maintain the amenity values of the receiving environment
- Objective 5.5 – Discharges to air do not adversely affect the relationship of Ngāi Tahu with their culture and traditions
- Objective 5.6 – Developments and innovation in technology are enabled to provide solutions to air quality issues
- Objective 5.8 – It is recognised that air quality expectations throughout the Region differ depending on location and the characteristics of the receiving environment
- Objective 5.9 – Activities are spatially located so that they result in appropriate air quality outcomes being achieved both at present and in the future

Policies

Y N N/A

- Central Policies Applying to All Activities: 6.1 to 6.14
- Policies for Space Heating Region Wide: 6.27 to 6.30
- Policies for Space heating in Clean Air Zones 6.31 to 6.43

Please list any other relevant objectives and policies from the proposed Canterbury Air Regional Plan below. Where you think your activity cannot meet any of the relevant objectives and policies above, please explain briefly why not.

2. ASSESSMENT OF INVESTMENT VALUES (RENEWAL OF EXISTING CONSENTS ONLY)

Please complete this section only if your application is to renew an existing consent.

Important: you must complete this question if your application is intended to replace a current resource consent, and this application will be lodged with Environment Canterbury at least 3 months before that consent expires.

- Provide an assessment of the value of your investment. You need to:

Specify the value of investment of the activities/infrastructure that are reliant on the resource consent/s you are applying for here. This must be the 'book value' of the investment (not the replacement value).

- < \$10,000
- \$10,000 to \$50,000
- \$50,000 to \$250,000
- \$250,000 to \$1,000,000
- \$1 Million to \$5 Million
- \$5 Million to \$50 Million
- > \$50 Million

- Include evidence that supports the assessment.
